South Carolina Public Service Commission

Dear Public Service Commission,

Despite all the irregularities in the merger, it was approved. As consumers we will be paying more for power in the creation of the largest utility on the East Coast. How is this oversight looking out for the environment and the rate payers?

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Jeanne Moyer
